IEEE Automatic Speech Recognition and Understanding Workshop

The biennial ASRU workshop has a tradition of bringing together researchers from academia and industry in an intimate and collegial setting to discuss problems of common interest in automatic speech recognition, understanding, and related fields of research. The workshop includes keynotes, invited talks, poster sessions and will also feature challenge tasks sessions and panel discussions.

We invite papers in all areas of spoken language processing, with emphasis placed on the following topics:

- Automatic speech recognition
- ASR in adverse environments
- New applications of ASR
- Speech-to-speech translation
- Spoken document retrieval
- Speaker/Language recognition
- Multilingual language processing
- Spoken language understanding
- Spoken dialog systems
- Text-to-speech systems
